The New York World
Thrice-a-week Edition.

The Thrice-a-week World hopes to be in 1908 a better paper than it has ever been before, and it has made its arrangements accordingly. Its news service covers the entire globe, and it reports every thing fully, promptly and accurately. It is the only paper, not a daily, which is as good as a daily, and which will keep you as completely informed of what is happening throughout the world.

The Thrice-a-week World is fair in its political reports. You can get the truth from its columns, whether you are a Republican or Democrat, and that is what you want.

A special feature of the Thrice-a-week World has always been its serial fiction. It publishes novels by the best authors in the world, novels which in book form sell for \$1.50 apiece, and its high standard in this respect will be maintained in the future as in the past.

The Thrice-a-week World's regular subscription price is only \$1.00 per year and this pays for 156 papers. We offer this unequalled newspaper and The Banner together for one year for \$1.65. The regular subscription price of the two papers is \$2.00.

Twist Off Top.

Very few people, with the exception of those living in a pineapple country, know how to remove the top from the fruit. Hold the apple firmly with one hand, catch the top with the other, and twist around. It comes out easily.—Good Housekeeping.

Folly of Pride in Gold.

He that is proud of riches is a fool. For if he be exalted above his neighbors because he hath more gold, how much inferior is he to a gold mine!—Jeremy Taylor.

Didn't Want to Intrude.

In a Studio at Rome: Fair Sitter—The Hadrians' villa, now! When would be the best time for me to see it? I mean, of course, when the family is likely to be out!—Punch.

A Good Defense.

"How could you tell that ugly girl she had a complexion like peaches and cream?" "No lie about that. I meant yellow peaches and sour cream."

Safe Rule.

Any man who writes a letter he wants burned should burn it himself.—Atchison Globe.

FREE ATTRACTIONS AT PENSACOLA FAIR

DIFFERENT FROM THOSE GRATIS SIGHTS USUALLY SEEN AT STATE FAIRS.

Entirely different from the ordinary line of free attractions so common at fairs throughout the country will be the high class attractions put on at the Pensacola Interstate Fair this year, and the free attractions will be worth the price of admission to the gates.

General Manager Lillard and the amusement committee have not spared money and time in securing the very best attractions of this kind to be secured in America, as they believe in making this feature of the fair, like the others, a little better than the best, although doing so has required an enormous outlay of money.

Not only have these attractions been secured with a view to entertaining the crowds at the fair grounds, but they have made a special effort to secure attractions that are instructive as well as entertaining.

Everyone of the free attractions, like the other attractions to be found on the grounds is strictly clean and moral, this being the first consideration of the management in securing the attractions.

Already a larger number of good free attractions than has ever been billed at a fair here has been secured and it is probable still more will be added between now and the time for the fair. The committee is now negotiating with one of the most sensational acts ever witnessed in America at any fair or exposition and one which so far has only been seen at the biggest fairs in the country, and which is recommended by prominent men who could not afford to endorse anything but the best.

It is probable that this act will be secured and added to the list of free attractions and this one particular attraction is worth attending the fair to witness.

All of these free attractions will occur daily and will be arranged so as to take place at hours when the most people will be enabled to take advantage of them and will be put on at places in full view of every person on the grounds.

When you have a bad cold and want the best medicine obtainable to cure it with as little delay as possible. Here is a druggist's opinion. I have sold Chamberlain's Cough Remedy for 15 years, says Ems Lollar, Saratoga, Ind., and consider it the best on the market. For sale by all dealers.

UNCERTAIN APPLE TREE.

An apple tree is the result of a graft from the tree that is known to be a producer of a certain kind and flavor of apples. If the seed were planted and one relied on it to produce a select grade of fruit the result would be disappointing, for the reason that from the seed the most remarkable varieties will be shown. Perhaps they will be miserable little crabapples or misshaped, bitter fruit or a useless conglomeration. The seed somehow or other harks back to its origin, notwithstanding years of cultivation. The varieties of apples known today are a result of careful selection and constant grafting of the better kind from year to year until the present development has been reached.—Harper's Weekly.

ADDITIONS TO BRITISH NAVY.

During the year 1911 forty warships were launched in the British navy. These include eight super-dreadnoughts, carrying 13.5 guns; two protected cruisers, two unarmored cruisers, twenty-three torpedo boat destroyers and five submarines. These ships aggregated 221,000 tons and will cost when completed over \$86,000,000.

SAVED BY HIS WIFE.

She's a wise woman who knows just what to do when her husband's life is in danger, "ut Mrs. J. J. Flint, Haintree, Vt., is of that kind. She insisted on my using Dr. King's New Discovery, writes Mr. F. for a dreadful cough, when I was so weak my friends all thought I had only a short time to live and it completely cured me." A quick cure for cough and colds, it is the most safe and reliable medicine for many throat and lung trouble—grip, bronchitis, croup, whooping cough, quinsy, tonsillitis, hemorrhages. A trial will convince you. 50 cts. and \$1. Guaranteed by E. E. McGeachy.

IS QUEEN OF GREENSTONES

Transparent Bowenite, or "Tungiwai" is Found on South Island of New Zealand.

An important discovery is reported of a large outcrop of greenstone in a hitherto unexplored mountainous district on the west coast of the south island of New Zealand, which is thought to be the original mother reef from which all the greenstone found in that island is derived. It is anticipated that it will hereafter be so plentiful that its use will no longer be confined to local souvenir jewelry, but will be used for mantelpieces, table tops, monuments, etc., and will also be exported to China, where greenstone, in the form of jade, is regarded with peculiar veneration. The discovery of transparent bowenite, known as "tungiwai," the queen of greenstones, near Milford sound, on the west coast of the south island of New Zealand, is regarded as one of great importance in mineralogical circles, for it comprises the rarest and most valued quality of greenstone known in New Zealand, and probably in the world.

J. W. Copeland, Dayton, O., purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold and before the bottle was all used the boy's cold was gone. Is not that better than to pay a five dollar doctor's bill? For sale by all dealers. (Adv)

INOPPORTUNE.

He was arrested on the charge of robbing another of his watch and chain. It was claimed that he had thrown a bag over his victim's head, strangled and robbed him.

There was so little evidence, however, that the judge quickly said: "Discharged."

The prisoner stood still in the dock, amazed at being given his liberty so soon.

"You're discharged," repeated the judge. "You can go. You're free." Still no move from the prisoner, who stood staring at the judge.

"Don't you understand? You have been acquitted. Get out," shouted the judge.

"Well," stammered the man, "do I have to give him back his watch and chain?"

SHOVING HIM OFF.

George—I'm afraid Ethel doesn't love me any more.

Jack—What makes you think so? George—Last night she introduced me to her chaperon.

Here is a woman who speaks from personal knowledge and long experience, viz Mrs. P. H. Brogan, Wilson, Pa. who says, I know from experience that Chamberlain's Cough Remedy is far superior to any other. For cough there is nothing that exceeds it. For sale by all dealers. (Adv)

ALBINO A PUZZLE.

The albino is still one of the puzzles of science. Beyond the knowledge that albinism is due to a lack of the normal pigment in skin and hair the physiologist and pathologist are about as much at sea regarding the real explanation of this freak of nature as they were a hundred years ago. As to the ultimate why of the problem—why the pigment is missing in the albino—there is nothing but a collection of unconvincing guesses. Regarding the statistics of albinism nothing satisfactory is obtainable except in two countries. In Italy the albinos number about one in every twenty thousand of the population, whereas in Norway the rate is twice as high, with one in every ten thousand.

PERTINENT QUERY.

"A good appetite is a great advantage," said the physician. "To whom?" asked Mr. Growcher; "me or the grocer?"

SAVES LEG OF BOY.

It seemed that my 14 year old boy would have to lose his leg on account of an ugly ulcer caused by a bad bruise; wrote D. F. Howard, Agone, N. C. All remedies and doc ors treatment failed till we tried Buckle's Arnica Salve, and cured him with one box. Cures burns, boils, skin eruptions, piles. 25c at E. E. McGeachy. (Adv)
